When I look into the eyes
of an animal
I do not see an animal
I see a living being
I see a friend
I feel a soul.

Your fiber is weighed and evaluated upon receipt. Please send clean hair free of matts and debris. Most all dog and rabbit hair can be spun on its own. Cat hair often needs to be spun with added fiber for durability. I will assess your fiber and give you my opinion regarding a straight spin v/s a blend. The final decision will be yours to make.

Cost

\$17/ounce weight in for a 2 ply sport weight yarn from your saved brushings or blending fiber
This includes picking/carding, spinning, plying, washing/drying, twist setting, rinsing & ball winding

Additional Charges

\$4/ounce added to base price for clippings which involves additional prep and spin times
\$4/ounce added to base price for compressed or poor condition fiber in need of additional prep
\$4-6/ounce for the cost of addition fiber if you choose to have your hair blended with other fiber

Upon receipt of your fiber, I will contact you with an assessment, start date, quote and go over any details. Partial payment is due on the start date and the balance upon completion. I invoice via PayPal (you don't need a PayPal account) . Personal checks accepted.

The finished weight of your yarn will be less than intake weight due to fiber loss during processing, hair that was sorted out and not suitable for spinning, and shrinkage. Generally, an ounce of hair will yield anywhere between 30 and 50 yards per ounce.

Is there anything else you'd like me to know about your pet?

Please feel free to include a hard copy or send a digital copy of your pet. I love to see the animals behind the hair I am spinning and find it to be very inspiring to have an image of your pet as I work. You'll also see your pet featured on my website, Facebook and Instagram [nine.lives.twine](https://www.instagram.com/nine.lives.twine)

Thank you for considering me to work on this very special project with you and your beloved pet! I love connecting with kindred spirits . XO – Theresa
